- JavaScript

## WORK EXPERIENCE:

<b>Developer</b>	<b>January, 2021 - Present</b>
<i>Infosys / Pune / Currently Working.</i>	

I have a total Experience of **2.7 Years** (1.5 years - Operations Executive, 1.2 years - Senior System Associate) on development and support project with skillset like Linux, MySQL, Spring Boot, Angular and JAVA developer.

- Involved in impact analysis & designing
- As a developer carried Coding, UT and supported the testing phases
- Backfill a lead developer during critical period
- Actively participated in production deployment and supported Go-live.

## PROJECTS:

- Development Project: **June, 2021 - Present**

Currently working on an Australian banking application which is use to keep record of its customer and details for providing and taking loan.

Responsible for improving and adding new features using Spring Boot, Angular framework and JAVA.

### Roles and Responsibilities:

- To gather the requirements through analysis and client meetings.
- Convey the changes and its impact on system to client.
- Develop / code the requirement and deploy them in production after test completion.
- Contribute to all stages of software development lifecycle.

- *JAVA migration Project:*

May, 2021 – May, 2022

It is an Australian banking application use to keep record of its customer and details.

In this project, I was working as a Java developer to migrate the entire application from JDK 1.4 to JDK 1.8

Roles and Responsibilities:

- Analyse all the efforts, resources and time would need to achieve the goal.
- Ensure all HTML, JS and Java existing code works as expected even after the version change.
- Resolve few of the existing bug in the system on backend (java functional side) as well on frontend (few cosmetic changes).
- Contribute to all stages of software development lifecycle.
- Constantly have client meetings to ensure things are moving smoothly.

- *Company Training:*

January, 2021 – April, 2021

Was trained as full stack developer with technologies like Angular 10, spring boot, MySQL. Also created a capstone project and was one of the High performer in the training for which I was rewarded with bonus as well.

**ACHIEVEMENTS:**

---

- Got title of *High Performer* during Infosys training.
- Completed *global Agile certification* and many other courses inside Infosys portal.
- Knowledge of diverse technology and open to learn.
